CONTENTS

No.1

Nanotechnology & Material Engineering

Jubilee of Prof. O. Figovsky

G/Muravin, E. Ilina

Revealing, Typifying and Assessing Flaws and Age-Related Degradation in Nuclear Power Plant Containments Using the Quantitative Acoustic Emission Non-Destructive Inspection Method

R. Abylkalykova, K. Kazdaev, I. Kveglis, V. Payuk

Solid-Phase Reactions at Ion Implantation of Nitrogen, Oxygen in Refractory Metals

I. Kveglis, R. Abylkalykova

The Features of Magnetic and Structural Properties in Fe–Mn–C Alloys after Dynamic Loading

D. Alontseva

The Nanostructures in the Ni-Cr and Co-Cr- Based Coatings Deposited by Plasma Detonation and the Modification of Coatings' Mechanical Properties by Duplex Treatment

Yu. Borisov

X-ray Fluorescent Analysis of Rubber Concrete Pyrolyzate

M. Ioelovich, O. Figovsky

Paracrystallinity of Cellulose

L. Abdrahmanova, V. Khozin

Surface strengthening of polymer construction materials by diffusion modification

N. Erdybaeva

Nanocomposite Protective Coatings Based on Ti-N-Cr/Ni-Cr-B-Si-Mo,
Their Structure and Properties

N. Lukutzova, S. Lukashov, E. Matveeva

Research of the Nanomodified Admixture and its Influence
on the Characteristics of the Fine-Grained Concrete

O. Mukbaniani, J. Aneli, E. Markarashvili

Composites Based on Epoxy Resin Filled with Modified Betontite

O. Mukbaniani, G. Gurgenedze, T. Tatrishvili

Dehydrocoupling and Hydrosylation Reactions of Methylhydrosiloxane to Allyl Alcohol

A. Murafa, D. Makarov, V. Khozin

Nanomodified Bitumen Emulsion for Construction Purposes

M. Nuriyev

The Atomic Short Range Order Parameters in the Films of Triple Compounds
Cu-In-S(Te) System

Yu. Potapov

Wear-Resistant Coatings on the Basis of Oligodiens

I. Ruban , N. Voropaeva , M. Sharipov, O. Figovsky

The Risks Connected with Use of Polymeric Nanostructures in Technologies
of Seeds Treatment before Sowing

L. Shapovalov, O. Figovsky, A. Trossman , O. Birukova, A. Shkolnik

Chemical Tagging Indicators for Identification of Overheated Places
in Power Transformer

S. Usherenko, A. Granberg, V. Sobolev

High-Energy Physical Effects at Formation of Composite Materials

No.2

Civil & Mechanical Engineering

Yu. Borisov, A. Popov, I. Shashkov

Assessment of the Operational Life of Concrete Airfield Pavements on the Basis
of Reliability Theory

Ye. Rynov, R. Sanzharovsky, O. Figovsky, D. Beilin

Durability and Efficiency of Reinforced Concrete Structures

E. Barsky, M. Barsky, S. Shishkin
Modelling of Combined Cascade Classifiers

E. Barsky, M. Barsky S. Shishkin
Quality Criterion for Combined Cascade Classifiers

V. Sobolev, A. Chernay, N. Bilan
Initiation System of Explosives by Laser Monoimpulse

B. Menin
Calculation of Pumpable (Slurry) Ice Machine Capacity

Letters to Editorial Board

A.Andreev, Ju. Sapozhnikova
Alogorithm of Data Enciphering and Decoding with Use of Dynamic Chaos

E.Levich, A. Libin, Yu. Magarshak
Helical Theory of Turbulence in Fluids and Plasma and Possible
Implications for Coherent Organization in Cosmos

O.Markov
Ecological Assessment of Innovations and Technologies
