

CONTENTS

No.3 NANOTECHNOLOGY & MATERIALS ENGINEERING

D. Pashin, O. Figovsky, Z. Khalitov

The Structure and Diffraction by Nanotubes

F. Nezhmetdinova

Nanobioethics – Nanotechnologies Have Any Ethic Limitations:

Problem Statement

V.V. Soboliev, S.M. Usherenko, N.V. Bilan

Physical Mechanics of Microparticles Superdeep Penetration into Metals

R.Garcia Inzunza, B.Valdez Salas, M.Schorr Wiener

Corrosion Inhibitors Patents in Industrial Applications.*Review*

LETTERS

N. Voropaeva , E. Gorshkova, V. Karpachev, O.Figovsky

Pre-Sowing Seed Treatment Using Environmentally Safe

Multi-Component (Nano) Chips Based on Natural Physiologically Active Substances

Y. B. Sokolovsky., A.Y.Sokolovsky
Technical Proposals for Wind Turbine Structures

V.E. Fortov
President of Russian Academy of Science

BOOK REVIEW

Advances in Marine Antifouling Coatings and Technologies
Edited by Claire Hellio and Diego Yebra,
CRC Press, USA and Woodhead Publishing Ltd., UK

Bible and Metallurgy
by *Strul Moisa*
Editura Galaxia Gutenberg, 2011

Nanostructured Materials for Engineering Applications
Edited by Carlos Perez Bergmann and Monica Jung de Andrade,
Published by Springer-Verlag Berlin Heidelberg
